## Challenge 2:

Write a JavaScript function that accepts a string as a parameter and converts the first letter of each word of the string in upper case.

## Challenge 3:

ATM for coins

You are designing an ATM and you want to output the coins as per the amount

Let's say e.g. the amount is 147, and let's say the coins are 10, 5, 2 & 1

then the output would be 14 coins of 10, 1 coin of 5 and 1 coin of 2

We want to minimize the amount of coins given
